Literature Review

Consumer Behavior Concept

Consumer behavior is the study of when, why, how, and where people do or do not buy a product. It blends elements from psychology, sociology, social anthropology and economics. Consumer behavior is “The study of individuals, groups, or organizations, and the processes they use to select, secure, use, and dispose of product, services, experiences, or ideas to satisfy needs and the impacts that these process have on the consumer and society.

Characteristic Affecting Consumer Behavior

Kotler and Amstrong (2004) define the characteristic that influence the consumer behavior, they define cultural, social, personal and psychological are strongly influencing the consumer behavior.

1. Cultural Factors. In cultural factors divide the cultural itself in to three specific variables, they assuming that marketer needs to understand the role played by the buyer’s culture, subculture and social classes.
2. Social Factors. In social factors divide the factors into several specific parts, such as consumer’s small group, family and social roles and status.
3. Personal Factors. A buyer decisions also are influenced by personal characteristics as the buyer’s age and life cycle stage, occupation, economic situation, lifestyle, and personality and self-concept.
4. Psychological Factors. A person’s buying behavior choices are further influenced by four major psychological factors: Motivation, Perception, Learning, and Beliefs and Attitude.

2. METHODOLOGY

Type of research

To conduct this research, the researcher use qualitative method. Various research methods and techniques are available for interpretive studies; they draw from phenomenology, hermeneutics, feminism, deconstructivism and may take the form of ethnographies, interviews, psychoanalysis, cultural studies, participant observation, grounded theory, just to name a few. The researcher will select the best methods based on his or her research question: will the researcher study individuals (narrative, phenomenology); explore processes, activities and events (case study, grounded theory); or learn about the broad cultural-sharing behavior of individuals or groups (ethnography) (Creswell 2009, 177).

Place and Time of Research

This research is took place in areas around Manado city, for exact pace that author mad an interview in Kleak, Kampus. It conducted between February to April, 2016 in Manado city.

Data collection method

Primary Data

Primary Data are first-hand information. This information is collected directly from the source by means of field studies. Primary data are original and are like raw materials. It is the most-crude from information. The researcher collects primary data or supervises its collection. It may be collected on a sample or census basis or from case studies.
Secondary Data

Secondary data analysis can be literally defined as “second-hand” analysis. It is the analysis of data or information that was either gathered by someone else (e.g., researchers, institutions, other NGOs, etc.) or for some other purpose than the one currently being considered, or often a combination of the two (Choosen 1997). If secondary research and data analysis is undertaken with care and diligence, it can provide a cost-effective way of gaining a broad understanding of research questions. Secondary data are also helpful in designing subsequent primary research and, as well, can provide a baseline with which to compare your primary data collection results. Therefore, it is always wise to begin any research activity with a review of the secondary data (Novak 1996).

Data Analysis method

Data obtained in qualitative analyze to answer the research problem “the effect of consumer psychology towards consumer behavior of Samsung Smartphone in Manado city?”, researcher used qualitative research method. In qualitative research, data analysis method does not use statistical measurement. It is all because qualitative research is a way of developing theoretical concept. In order to know and understand about consumer psychology, the researcher needs the valid data which can be finding by doing a direct observation. With that, the researcher will have the correct answer and honest opinion from the informant and will produce an accurate result in defending the research objective. Descriptive analysis study is used in this research; it is based on observation, interview and literature studies.

Discussion
Consumer psychology

Successful businesses understand how to leverage the different factors that influence consumer buying behavior to effectively market their products and maximize sales. Studies show that there are generally four main factors that play a role in the consumer's buying behavior. These factors include cultural factors, social factors, personal factors and psychological factors. The psychological factors that influence an individual's decision to make a purchase are further categorized into the individual's motivations, perceptions, learning and his beliefs and attitudes (Callwood, 2013). This research is match with Boky (2015) psychology factor can affecting consumer purchase decision toward Samsung Smartphone. Psychology factor has important part for consumer to decided and take decision, especially purchasing Smartphone from Samsung. This factor also as part from environment affect, where’s she or he live and life on present without refuse the affect on past or anticipate on future. Choosing product that consumer bought continuously is affecting from important factor of psychology. Because usually were neutral to family and friend suggestions influence on buying a Smartphone (Mohan, 2014).

Motivation

Motivation is an activated internal need state leading to goal-directed behavior to satisfy that need. Accordingly motives can be defined as relatively enduring, strong, and persistent internal stimuli that arouse and direct behavior toward certain goals (Trehan, 2009). Motivation that Manado consumers have toward Samsung Smartphone is Samsung become trend in society. About 5 respondents who stated motivation behind using Samsung Smartphone is Samsung become trend in society. This finding is match with Osman et,al. (2012) respondents reported that the trend in community is an important criterion that influences Smartphone purchasing decision. Almost all respondents stated that they already using Samsung Smartphone around 2 or 3 years. This brand of Smartphone is Famous around society in Manado city that providing Facebook application, game, and unique type or design such as bigly screen.

Perception

Perception is called as the energy which makes us aware of the world around us and attaches a meaning to it after a sensing process. Each human being in the world sees his/her surroundings differently. Several people have the same ideas about a specific event. No one can see or feel the 100% of all things. Ever wonder why people buy certain products? It is all about perception. Perception is how consumers understand the world around them based on information received through their senses. In response to stimuli, consumers subconsciously evaluate their needs, values and expectations, and then they use that evaluation to select, organize and interpret the stimuli (Connolly, 2010). Consumers of Samsung Smartphone in Manado are not regular buyer of Samsung Smartphone. They already use Smartphone from another brand like Nokia, SONY and Black Berry, and when Samsung being trend in society they start to change their Smartphone to Samsung Smartphone. From this stage they searching Information about Samsung Smartphone are from friend, internet and Samsung store. The major reason they interested about Samsung is Facebook application and design of Smartphone, such as bigly screen. About 6 respondents who interested on Facebook application, 5 respondents who interested on design of Samsung
Smartphone, and from respondents Facebook application and design of Smartphone, there is 2 respondents who interested on both Facebook application and design of Smartphone. The quality of Samsung Smartphone is equal with price that Samsung offer, all respondents are agreeing about this statement after they use Smartphone from Samsung.

**Learning**

Learning describes changes in an individual’s behavior arising from experience. In every circumstance our perception is conditioned by our prior experience, for it is this which constitutes our preparatory set or expectations and the framework into which we seek to place and organize new stimuli. In other words, we have learned from our earlier experience and seek to maintain balance or consistency by relating to and interpreting new stimuli in terms of past or learned stimuli (Blythe, 2008). Samsung Smartphone attracts the attention consumer in Manado city because this Smartphone is comfortable and can fulfill need of consumer for this era. Base on respondents overview, this Smartphone is comfortable to use because can make people keep up to date on social medial just like Facebook, being up to date on Facebook is need of consumer in Manado city. Not only in that point, consumer may like to share benefit or weaknesses of Samsung Smartphone to people around them has who also use Samsung Smartphone jutted like family or friend. There are 5 respondents who already two time change Smartphone from Samsung are felt comfortable while using Samsung Smartphone.

**Belief and attitude**

Kotler defines belief as “descriptive thought that a person holds about something” and attitude as “a person’s enduring favorable or unfavorable cognitive evaluations, emotional feelings, and action tendencies toward someobject or idea”. Individuals can have specific beliefs and attitudes about specific products and services (Sarangapani, 2009).

4. **CONCLUSION**

Samsung smartphone become a trend in society especially for young people who have big passion in social media. Because Android system that can make consumer browsing internet more speed, not only speed browsing from android system but also consumer can buy or download application from Google play store that Samsung over so, consumer can feel comfortable for daily use or social life just like keeping up with social media, big screen can help consumer to more enjoy playing game or watching movie, consumer can take picture with nice camera, and last Samsung create smart phone case with soft color. The reason consumers choose to buy Samsung smartphone not only because advantage that Samsung has, they get influence from family or friend. But slowly but surely another smart phone like Iphone, SONY or OPPO attract consumer attention with their new application and quality better than what Samsung has. From result we can find consumer who already use Samsung and felt comfort with it, changing their interest to another brand just like Iphone, SONY or OPPO. The reason behind it because OPPO has camera better that Samsung and Iphone has application and quality better than Samsung has.
